

A photograph showing a metal rack filled with various safety equipment, including ropes, carabiners, and harnesses, hanging from the rack.

Struggling to find serial numbers on your assets?

Are you sick and tired of entering data, wasting hours and productivity?

With EZYiD you could be adding at least 80%\* back into positive productivity!

## Now there's a better way to audit your assets!

The painful task of auditing PPE and working at heights equipment absorbs many human hours that can influence accurate data entry. Errors can have a devastating effect on your most valuable asset, your people.

Decreasing the time it takes to audit equipment and assets is now easy with EZYiD.

Using state of the art RFID technology, EZYiD uses power-packed micro-chipped tags that are integrated into working at heights and personal protection equipment.

EZYiD is exponentially revolutionising how companies use work hours more effectively to audit assets. **Would you like more productivity from your workforce?**

EZYiD is flexible, mobile and easy to integrate into your existing auditing software.

*"It's a no brainer!"*

# EZY iD Tiny tags that pack a punch!

## • HOW IT WORKS

### BENEFITS:

- Makes identifying assets easy (EZYiD)
- Time saving
- Reduces human error
- Flexible with your existing audit software (keyboard emulation)
- Portable system
- Customised to your needs
- Revolutionises asset management
- EZYiD tag, ties and stickers can be applied manually to any product
- Improves productivity

### 3 Easy Steps

1. Purchase from the range of EZYiD finished products and retro fit EZYiD stickers, ties and tags to your existing assets.
2. Connect the reader to your PC, laptop or mobile device via blue-tooth.
3. Simply point and press the EZYiD reader at the EZYiD tag and the data will automatically upload to your existing software. **It can't be any easier!**

Are you ready for a demonstration on how EZYiD can change the way you're conducting audits and tracking assets?

Manufactured integration of the power packed tags

Hard wearing sticker integration

Carabiners manufactured with EZYiD® intelligence

EZYiD reader and robust tags with industrial strength glue

EZYiD wire and webbing slings with EZYiD intelligence

Convenient EZYiD stickers for multiple applications. (May not be sold in rolls)
