

Perform Pole Top Rescue

UETDRMP006 Perform pole top rescue

UEECD0007 Apply work health and safety regulations, codes and practices in the workplace

COURSE OVERVIEW

This unit covers the performance of pole top rescue procedures as an emergency procedure required in the workplace. UETDRMP006 Perform pole top rescue specifies the mandatory requirements of rescue from a pole top and how they apply in the context of transmission, distribution and rail work functions. It encompasses responsibilities for rescue, health, safety and risk management processes at all operative levels and adherence to safety practices as part of the normal way of doing work.

COURSE CONTENT

Prepare to perform pole top rescue

- Instruction in hazards and risk control measures for specific work functions and work areas are identified and obtained. (This will include the risk assessment and control measures taken by the individual performing the rescue).
- Tools and emergency equipment are checked for safety, functionality and placed in an accessible location to facilitate response and rescue according to established procedures.

Carry out pole top rescue

- Workplace procedures and work instructions for controlling risk are followed.

- Workplace procedures for accessing the pole top and removing the victim where necessary from contact with live apparatus Workplace procedures for attaching the emergency lowering equipment and lowering the victim to the ground are followed.
- Workplace procedures for carrying out CPR, if required, at the site and treatment where necessary by medical professionals are followed.
- The worksite is secured and entry controlled until appropriate authorities inspect and release the site.

Complete pole top rescue procedure

- Processes for reporting accidents and/or incidents to authorised personnel are confirmed in accordance with established procedures.

ENTRY REQUIREMENTS

- Be at least 18 years of age (Photo Identification is required to be sited prior to course commencement.)
- USI Number
- Be fit and able to climb and crawl
- Not have a fear of heights or confined spaces
- Arrive in suitable clothing (long pants, closed-in shoes, long sleeve shirt)
- Language, literacy and numeracy skills required to interpret legislative requirements and to undertake written and practical assessment activities

PRE-REQUISITES

Students enrolling into this course must hold current competency in:

- HLTAID009 Provide cardiopulmonary resuscitation (obtained within 1 year of course date)

AND

- UETDREL005 Work safely in the vicinity of live electrical apparatus

COURSE DURATION

1/2 Day (approximately 5 hours)

COURSE DATE & DELIVERY LOCATION

Courses are scheduled upon request. Please inquire **1300 001 201**

CLASS SIZE

Up to 12 participants per class

FEES AND CHARGES

Please contact us for a group / corporate quote.

NATIONAL RECOGNITION

Students who are deemed competent upon successfully completing the training and assessment will receive a Statement of Attainment nationally recognised under the Australian Qualifications Framework.

OBTAINED UNITS OF COMPETENCY

ISH24 Pty Ltd RTO 41559 will issue the Statement of Attainment for the following units:

- UETDRMP006 Perform pole top rescue
- UEECD0007 Apply work health and safety regulations, codes and practices in the workplace

MODE OF DELIVERY

Delivery of this course will be face to face; classroom-based blended with some practical activities. There are no pre-reading requirements. All content is covered in class as part of the training.
