

# EWP Rescue and Controlled Descent Escape

UETDRRF002 Perform EWP rescue

UETTDRRF08 Perform EWP controlled descent escape

## COURSE OVERVIEW

This course covers the performance of rescue and elevated work platform (EWP) controlled descent escape procedures from an elevated work platform (EWP) in the workplace. The units UETDRRF002 Perform EWP rescue and UETTDRRF08 Perform EWP controlled descent escape specify the mandatory requirements of rescue from a raised EWP by a work party member on the ground and of self-rescue and how they apply in the context of transmission, distribution or rail work functions.

## COURSE SUBJECTS

### Prepare to perform EWP controlled descent/ rescue procedures

- Instruction in hazards and risk control measures for specific work areas and work activities are identified and obtained
- Tools and emergency equipment are checked for safety, functionality and placed in an accessible location to facilitate response and rescue according to established procedures

### Carry out EWP controlled descent escape / rescue procedures

- Workplace procedures and work instructions for controlling risk are followed
- Workplace procedures for evacuating an EWP basket employing emergency descent equipment are followed
- Workplace procedures for removing the victim, where necessary, from contact with or in vicinity of live apparatus and lowering the EWP to the ground are followed
- Workplace procedures for carrying out cardiopulmonary resuscitation (CPR), if required at the site, and treatment, where necessary, by medical professionals are followed
- The worksite is secured and entry controlled until appropriate authorities inspect and release the site

### Complete the EWP rescue procedure

- Processes for reporting accidents and/or incidents to authorised personnel are confirmed in accordance with established procedures

## ENTRY REQUIREMENTS

- Be at least 18 years of age (Photo ID must be sited before course start)
- USI Number
- Be fit and not have a fear of heights
- Arrive in suitable clothing (long pants, closed-in shoes, long sleeve shirt preferred)
- Language, literacy and numeracy skills required to interpret legislative requirements and to undertake written and practical assessment activities

## PRE-REQUISITES

Students enrolling into this course must hold current competency in **HLTAID009 Provide cardiopulmonary resuscitation.**

## COURSE DURATION

Half day (approximately 5 hours)

## COURSE DATE & DELIVERY LOCATION

Courses are scheduled upon request. Please inquire **1300 001 201**

## CLASS SIZE

Up to 8 participants per class

## FEES AND CHARGES

Please contact us for a group / corporate quote.

## NATIONAL RECOGNITION & OBTAINED UNITS OF COMPETENCY

Students who are deemed competent upon successfully completing the training and assessment will receive a Statement of Attainment nationally recognised under the Australian Qualifications Framework for the following units:

- UETDRRF002 Perform EWP rescue
- UETTDRRF08 Perform EWP controlled descent escape

## MODE OF DELIVERY

Delivery of this course will be classroom based blended with some practical activities.

## ASSESSMENT SUMMARY

Students will be required to complete a written theory assessment as well as a practical demonstration assessment.

### Theory Assessment

Mixture of multiple choice and short answer questions. Student will be required to write down their own answers.

For students with learning disabilities or lack of English proficiency, reasonable adjustment may be applicable on a case-by-case basis. Please give us a call on 1300 001 201 to discuss your specific learning needs.

### Practical Assessment

Each student will be required to participate in at least two practical scenarios which will assess their ability to:

- apply workplace OH&S requirements, including the use of risk control measures
- confirm the function of emergency equipment to facilitate rescue
- access controls and lower the EWP in accordance with equipment instructions & workplace procedures
- remove the victim from the EWP to the ground
- involvement of external emergency services as appropriate
- adhere to safe approach distances (SAD) appropriate to EWP controlled descent escape
- fitting of rescue equipment for a self-controlled descent and removing self to safe location/place of safety

## COURSE ENROLMENT

Pole top rescue training is scheduled upon request only

To book and enrol into a pole top rescue course, please call our office at **1300 001 201** or send us an email to **vic.admin@ish24.com.au**

## DUTY OF CARE

ISH24 Pty Ltd adopts high standards in duty of care of its learners and assessors. ISH24 Pty Ltd reserves the right to turn anyone away that seems to be under the influence of drugs or alcohol. This action is to ensure that the learners' and assessors' safety is assured and that ISH24 Pty Ltd maintains an accident free learning environment and complies with our duty of care responsibilities. At ISH24 Pty Ltd we provide a friendly and supported environment to learn and achieve.
